Copenhagen, Denmark.

Letter of Recommendation for Christopher Michael Czechowicz

Position: DOX:TV Intern

Christopher has completed a full-time internship in the press and communications department at CPH:DOX, the Copenhagen International Documentary Film Festival, from the 15th of November 2016 to the 1st of April 2017.

Christopher was part of the DOX:TV team, which is responsible for all video content created by CPH:DOX and shared on the festival's website and social media channels. In his work as a DOX:TV intern, Christopher has performed a variety of tasks such as filming events & interviews, editing footage, creating film trailers and much more.

Christopher and the DOX:TV team were responsible for building a strategy for the video content creation, finding ideas and concepts for videos and trailers, filming, cutting and editing footage and delivering a valuable final product.

Chris has a background within filmmaking, which could be seen in his passionate approach to working with the videos. He has shown great attention to detail and understanding of the video-making process. His filming and editing skills are excellent and were a great advantage that definitely translated in the quality of the work produced this year by DOX:TV.

Chris has shown dedication to his work at the festival, often having to commute from Sweden to come to the office, and his desire to work with CPH:DOX was definitely felt and appreciated. Chris has filmed as many events, interviews and talks as he could throughout the day, providing high quality and diverse footage that could be used for the daily videos that were published as the festival was in full course.

During the festival, Chris made himself fully available and provided much needed help with other aspects of the festival, such as Q&As with directors after film screenings, as well as helping non-native speakers with proofreading and translation. Christopher is a talented videographer and very genuine and open-minded person.

It is with great pleasure that I endorse Christopher and would be happy to serve as a reference.
